**FOR IMMEDIATE RELEASE**

**InfraWare Unveils New Software Release for Enhanced Medical Transcription**

**TERRE HAUTE, Ind.** (Sept. 8, 2008) – InfraWare, Inc., one of the medical transcription industry’s fastest-growing ASP software companies, today announced the release of its 2008 medical transcription software platform. The new version of the [InfraWare 360 platform](#) has received numerous enhancements to assist [medical transcription service organizations](#) (MTSOs) in reducing the costs associated with producing accurate medical reports, while increasing transcriptionist productivity and cutting turnaround time.

“InfraWare 360 provides innovative tools that integrate medical transcription workflow with a health care facility’s patient registration data and electronic health records (EHR),” says [Nick Mahurin](#), CEO of InfraWare. “This empowers the health care end users to listen to dictations, track progress and approve documents online – conveniently and securely.”

InfraWare ensures confidence in [data integrity, HIPAA security and uptime reliability](#) by hosting its servers in top-tier data centers that not only guarantee redundancy, but also monitor equipment and data 24/7.

“This new platform continues InfraWare’s tradition of innovation,” said Mahurin. “We’ve listened to our customers and worked to develop an improved medical transcription product. As a result, the software is faster, more powerful and more intuitive to use. We’ve enhanced the user’s experience while also bringing the products in line with our updated brand image. “

The [InfraWare platform](#) contains new versions of the InfraWare Management Console (IMC) and EHR Web Portal. These provide significant enhancements, particularly in the critical areas of performance and workflow. New features include enhanced Queue performance for faster loading and sorting of jobs, streamlined navigation that provides access to information with fewer clicks, and text sizing options that enable users to customize text size according to their individual work preferences. Additionally, new Saved Search and Quick Search features enable administrators to better support end-users.

#### **About InfraWare, Inc.**

InfraWare is one of the medical transcription industry's fastest-growing ASP software companies serving Medical Transcription Service Organizations (MTSOs). InfraWare is not owned by—nor does it compete with—MTSOs. The fast, powerful, easy-to-use InfraWare 360 ASP platform was developed with input from hundreds of MTSO customers, enabling them to quickly and accurately produce more lines of transcription with each MT and better serve the needs of their physician and hospital clients. The intuitive InfraWare platform includes flexible dictation options, back-end speech recognition, transcription processing with a built-in word expander and medical spell check dictionary, automated document delivery options, and a management console to streamline administrative and quality assurance processes. To learn more about InfraWare, please call 877-235-7239 or visit <http://www.infraware.com>.
